AWARDS

Cambridge Advanced English / Diploma

JUNE 2018

Received a high grade on the official Cambridge test, proving that I speak fluent English.

IT Award / Diploma

JUNE 2017

At my high school ("gymnasium") I was chosen as the best IT student and received a diploma.

ABOUT ME

I strive to make the internet accessible, as everyone should have the opportunity to use the internet in a smooth way.

My favourite task is prototyping – from creating lo-fi wireframes to interactive prototypes.

WORK

Visuals and UX Designer / Bantaba

SEP 2021 – NOW, STOCKHOLM

Bantaba is Africa's biggest startup-diaspora community. As the sole designer in the team, I did a multitude of tasks such as:

- Designed the landing page and parts of the platform
- Designed and coded emails
- Created social media designs
- Did user research on the platform and worked on improving it

STUDIES

UX design and Requirements analytics / Chas Academy

SEP 2021 – NOW, STOCKHOLM

Chas Academy is a higher vocational university in Stockholm. The school has, amongst other things, taught me about:

- Design processes
- Interview techniques
- Agile working methods
- How to create interactive prototypes.

Everything to improve the user experience and make the web accessible to everyone, of course including people with disabilities.

Media Aesthetics / International IT College of Sweden

2015 - 2018, STOCKHOLM

High school studies ("gymnasium") with a focus on Aesthetics and Media. The media lessons taught me a lot, for instance about graphic design. I make sure to consider the things I learnt there even today while working with UX.
